

RELIABLE CERTIFIED ORGANICS COLLECTION SYSTEMS

Drive Cleaner, More Efficient Organics Collection with Proven Systems.

THE ECOSAFE ZERO WASTE SYSTEM

*A Complete Compostable System -
Not Just Products*

EcoSafe provides an integrated portfolio designed for distribution and end-user success:

COMPOSTABLE BAGS & LINERS

Core products for food waste collection

BINS, CARTS & ECOSTATIONS

Supports full system deployment

SIGNAGE & EDUCATION

Enables proper usage and adoption

PROGRAM SUPPORT & TRAINING

Core products for food waste collection

THE CHALLENGE

*Organics Programs Are Only as Strong as
Their System*

Organics collection programs depend on:

PROPER SEPARATION AT SOURCE

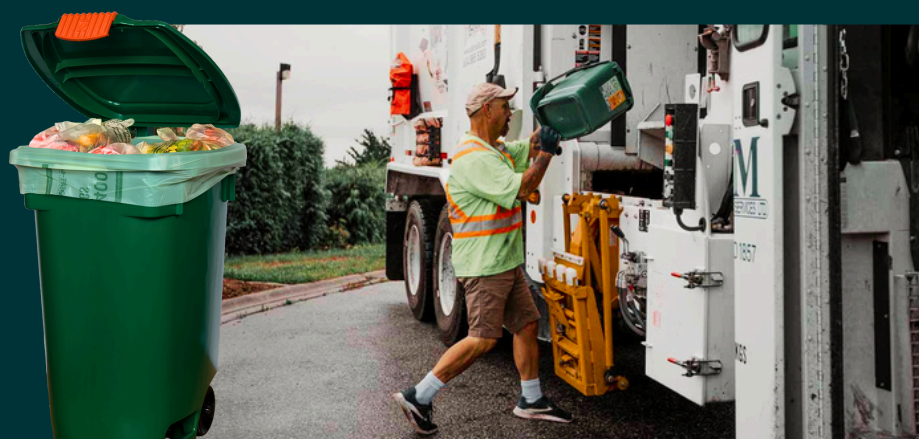

LOW CONTAMINATION LEVELS

CONSISTENT PARTICIPATION ACROSS CUSTOMERS

Without the right system in place, programs can become difficult to scale and manage.

WHY ECOSAFE ZERO WASTE?

Built for Real-World Organics Programs

- ✓ Certified compostable (BPI certified and CMA-IAW field tested)
- ✓ Designed specifically for food waste collection
- ✓ Easy to implement across routes and customer types
- ✓ Supports consistent program performance

OUTCOMES

What This Means for Your Operations

- ✓ Improved participation across programs
- ✓ Support for contamination reduction efforts
- ✓ More consistent organics streams
- ✓ Scalable across multiple customers and regions
